

The scatter plot displays 18 numbered points (0-17) in a 2D space. The points are colored and shaped differently: blue circles (0-17), red 'x' marks, green circles, grey circles, and magenta circles. The points are clustered in a grid-like pattern, with some points labeled with numbers. The x-axis ranges from -5.0 to 12.5, and the y-axis ranges from 0.0 to 10.0.
